## SEXY SILHOUETTE

Some in-car Bluetooth speakerphones are so bricky and stylistically barren they could double as tyre chocks. Not so Sudio's new Silhouette. As seductive as any top-line mobile phone, its polished black and metal trim is virtually a crime to hide behind a car's visor, for which it was designed. But,

the Silhouette is not just a pretty face.

The slim hands-free speakerphone has 12 hours of talk time, 500 hours of standby time, Digital Signal Processor, auto off (to save battery juice), and uses Bluetooth connectivity to pair with your mobile. It's \$129.
